I would only say that with all the other Navajo work going on, we be able to keep this separate. Don't know whether it's better to use the R8 or R9 SSID.

I think we are ok with it since it doesn't matter who's money we're using but it will be difficult to breakout how much we spent on the Navajo specifically if we lump all into R8's SSID. If we don't that we'll need to break the cost out more specifically the. It should be ok be knowing the sensitivity with the Navajo Nation, I think it would be a good idea to track that separately. Just my two cents.

Pete or Will,

Any thoughts?

Works for me. What's r9's take on the guidance to use a single ssid?

Hi Ben,

R9 is not planning to make any payroll or travel amendments until the issue with SEMS is resolved. Don't want to do all the work only to find out it won't work.

Please let me know if that will be a problem.

Thanks!

Subject: Gold King Mine Response Guidance

All,

I wanted to recap the call we had with OSWER and the resource discussion afterwards and make sure we are on the same page...or at least getting closer to the same page.

Moving forward...

- Home Regions will cover base pay for anyone deployed or working on the Gold King Mine Response. Additional payroll dollars are being requested.
- Requesting Regions (i.e. R8 requesting support from R9) will pay OT costs associated with Response. Additional OT payroll dollars are being requested.
- Travel should be covered by the home office and if they are unable to cover the costs Requesting Region will assist. Additional Travel dollars are being requested.
- SSID – OSWER guidance is to use a single SSID, however, this may not be possible if SEMS does not allow. Checking on this...
- R6, 8 and 9 will breakout payroll vs OT to submit to HQ asap.
- OSWER/OCFO will be distributing guidance tomorrow am.
- OSWER/OCFO will be looking at all DC6 funds Agency-wide to assist.

Thank you Lisa for your excerpt from the papal visit guidance (I've pasted below again)

If I missed anything or made a mistakes please reply.

Thank you all.

Ben

Following is an example demonstrating how Regions 4 and 5 can expend their payroll dollars to charge regular time to the Papal Site Account and Region 3's payroll dollars to charge overtime. The difference is the ORG CODE in the site account built in their PPL favorites.

Region 3 Account for Overtime -

2015 T 03W 303DC6 A34ARS00 – Papal Visit.

Region 4 or 5 Account for Regular Time –

2015 T 04D??? 303DC6 A34ARS00 – Papal Visit.

Regions 4 & 5 build both accounts in the employees PPL favorites.

Following is a screen shot as an example of the timecard in PPL (regular time charged to R4 and overtime charged to R3). It's just an example, the ORG Codes, etc. could be different.
